XL800 Productivity Appliance

Improve your manufacturing productivity

Do you want to:

- **Reduce manufacturing costs?**
- **Increase output or factory capacity?**
- **Continue making progress on your improvement journey?**

XL800 is an easy to install and complete solution that will help you achieve all of these objectives.

XL800 Size: 35cm (h) x 67cm (w) x 9cm (d), 9kg

XL800 will help you increase productivity by:

- Providing accurate information to where it makes the most difference: your shop floor.
- Enabling your leadership team to make decisions based on accurate data rather than gut feel or slow, inaccurate, manually collected data.
- Having a highly visual display which helps inform, alert, and motivate your team.
- Delivering accurate live data across your site Ethernet LAN which can be accessed instantly by anyone onsite.
- Providing all this in one low-cost fully-integrated hardware appliance.

Prices from **ONLY £2910**

XL800 is the ultimate 3-in-1 productivity appliance combining; a line display system, live data analysis and integrated reporting.

Try before you buy

Key benefits for installing XL800 on your line

● Quick and easy to install

- XL800 can be installed in about an hour after unpacking for a standard configuration.
- The XL800 needs only 2 signals from your line in order to give you accurate downtime. Simply give it a running rate and a reject rate and you are ready to go.

● View performance anywhere in the factory

- With XL800 on your factory network you can view your performance on any PC. Now we even include iPhone support as standard.

● Extremely flexible

- You can configure any combination of KPIs to be displayed - fully user configurable.
- With 22 inputs and 6 outputs you can use an XL800 in any manufacturing or distribution environment.

● Comprehensive FREE support

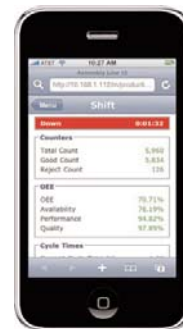

- We offer FREE telephone support with an experienced engineer to help install and commission every XL800 unit.
- Additional support services available include; onsite installation and setup, bespoke training, and OEE improvement workshops.

● Easy to roll out

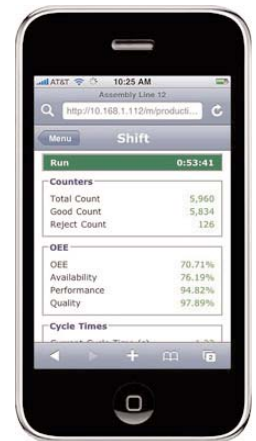

- You can quickly export the configuration from your trial installation to roll out instantly on every further installation.
- We also offer extremely generous discounts for factory roll outs.

See your performance in real time

Compatible with WiFi devices

The secret of performance improvement:
(Information x Focus) x Actions = Results

- Poor quality information** = focusing on the wrong areas = **poor results**
- Poor level of focus** = teams are not accountable for improving = **poor results**
- Poor quality actions** = issues are not resolved = **poor results**

Since 2001 our team of skilled operational experts have been helping manufacturers use data to improve productivity. We have the capability to help you create robust sustainable processes to really maximise your plant productivity.

XL800 Leads the way to 22% productivity gain

“So far this year, we have been able to achieve a 22% improvement in OEE, and XL800 has been an integral part of our improvement process. By knowing the status of all our lines in real-time, we can address problems in real-time. With XL800, our entire team sees downtime, and eliminates downtime. We count on XL800 to show us what areas we need to address, and we take immediate action from there.”
